## ABOUT THE LONDON COLLEGE OF ARTS MALTA

Founded with a vision to provide world-class design education, we offer a range of programs designed to equip students with the skills and knowledge needed to excel in today's dynamic global market.

All our qualifications, ranging from the level 5 undergraduate diplomas to the Bachelor's degrees, are European-accredited and recognised worldwide for immigration and higher education. We follow the guidelines set by our regulator, the Malta Further & Higher Education Authority (MFHEA). Our courses are aligned with the Malta Qualifications Framework and the European Qualifications Framework.

LCA offers a wide range of design degrees in Fashion and Interior Design, combining creativity with the growing digital world. Accredited by MFHEA, our programs attract students from across the globe. With live online lectures and expert mentorship, our European-accredited qualifications are accessible and industry-relevant.

Rooted in European heritage, we offer accredited programs in top design destinations. Our industry-driven courses prepare students for real-world success, shaping skilled and responsible professionals with a focus on sustainability.

### OUR MISSION:

Empowering individuals with design education that fosters leadership, strategic thinking, and practical skills in an inclusive environment for career success.

### OUR VISION:

To be a leading institution recognized for excellence in design education, known for producing impactful leaders who drive innovation and success in their fields.

# PROGRAM DESCRIPTION

The Undergraduate Certificate in Designing a Fashion Collection CAD is a 30 ECTS program focused on two key areas. The first area, Trend Forecasting, introduces the process of analyzing and applying trends to support design decisions. Students explore forecasting methodologies, trend cycles, leading agencies, Pantone referencing, trend communication, and styling principles, examining the role of stylists, influencers, photographers, and magazines in shaping fashion imagery over the past 50 years. The second area equips students with the skills to develop a cohesive fashion collection, from initial client brief to final presentation. Topics include research for design, trend forecasting, concept boards, customer profiling, idea generation, design development, and illustration techniques using traditional and contemporary media.
